## **Objective**

Internship in the Programming area, with interest in software development, systems analysis, databases, or other technology-related fields.

## **Professional Profile**

Computer Science student with a technical background in Game Development. I have knowledge in programming logic, web development, and systems fundamentals. I am dedicated, communicative, and adaptable. I am seeking an internship opportunity to enhance my technical skills and contribute with practical and efficient solutions in the technology field.

## **Professional Experience**

- Forneria Sant'Antonio (May 2023 – Present)

Financial Assistant: Use of Excel for the company's financial control, improving financial management and internal organization.

## **Education**

Bachelor's in Computer Science – UNICID

Jan 2024 – Present

High School – EE Professor João Dias da Silveira (Completed)

Jan 2023 – Dec 2023

Technical High School in Game Development – FECAP

Jan 2021 – Dec 2022

## **Technical Skills**

- Programming Logic
- Object-Oriented Programming (Java, Python)
- HTML & CSS (Intermediate)
- JavaScript (Basic)
- PHP (Intermediate)
- Python (Intermediate)
- Java (Intermediate)

- MySQL (Intermediate)
- Git / GitHub
- Microsoft Excel (Intermediate)
- Visual Studio Code
- REST API Consumption

## Languages

- Portuguese: Native
- English: Intermediate (good reading and writing, basic conversation)

## Courses & Certifications

- Microsoft Office – FECAP (2021)
- Intermediate English – FECAP (2021–2022, integrated technical course with level-based classes)
- Full Stack Development – Alura(2025)
- Java Development – Alura(2025)
- Python Development – Alura(2025)
- Artificial Intelligence & Machine Learning – Alura(2025)

## Areas of interest

- Software Development
- Web Development
- Game Development
- Artificial Intelligence
- Cybersecurity
- Innovative IT Solutions

## Achievements & Additional Activities

- Lecture at a private school (Colégio Rama) – Delivered a presentation on technological innovations to 8th and 9th-grade students as part of a college extension activity. (2024)
- Volunteer Social Work – Volunteered at the “Quinta da Entrega” institution, helping distribute meals to people experiencing homelessness. (2024–2025)
- Sui Bootcamp – Participated in a bootcamp focused on development using the Move language (created by Facebook), with emphasis on programming and innovation. (2025)
- Extension activity in a public daycare center – Participated in an educational activity at a municipal daycare, assisting children in a hands-on project of planting beans in plastic cups, promoting playful learning and child development. (2025)
